## WHY BANGLADESH? WHY NOW?

The export-oriented RMG sector in Bangladesh started as a small non-traditional export sector in the late 1970s. Within three decades, RMG has transformed itself into the country's highest revenue-generating sector, contributing 81.2 percent of Bangladesh's total exports, making Bangladesh the second-largest garment exporter in the world. From spinning to weaving, from knitwear to leisurewear and high street fashions, the textiles and clothing industry designs and produces for the world's leading brands and retailers. Low-cost and high-quality products that are produced on time; reliably and very competitively with a skilled workforce; unique regional location for expansion into key Asian and other markets; privileged trading status with Canada, the EU, and Japan; clusters of companies providing a local supplier base with depth in skilled labor, training, and technical development facilities provide a favorable advantage for the investors to invest in Bangladesh. Bangladesh exports Apparels worth over US\$ 35 Billion to nearly 120 countries.
